When one mentions the holidays now, most people think of December, but for many years, we developed traditions for the most important time of the agricultural year, the Harvest Home, the celebration of the "Last sheath cut". This, along with the Autumn Equinox, the old Celtic new year, gave us our modern Halloween, Thanksgiving, Harvest Fairs, Hayrides, Apple festivals, and Corn mazes. It is the gate of winter, the time of transition in a very real sense, from the vibrant green of summer to the cold solitude of winter, the cycle of life, death, and rebirth. So let us celebrate together with our own cycle of music and song. Here's to your Holiday Traditions!
